A Public Service Publication

Few lines of business have such a varied clientele as has the Manila City Directory. It serves high and low, rich and poor, with equal impartiality, and with profit to all.

It answers the questions What? and Who? and Where? which arise in daily business life and fills a position occupied by no other publication under the sun.

It is often used from its issue until it falls to pieces, and seldom will you find one entirely discarded while its leaves cling together.

A publication which is so universally used and whose life is so long, must appeal to every shrewd business man as a most desirable advertising medium.

Are you properly represented in this valuable medium?

In your advertising appropriation for 1942 you should include a sufficient amount to give you the representation in the Manila City Directory which the prominence and importance of your firm warrants.
